Hands-on investigations & exploration

K-3

### Camping

Bring the outdoors in! We will learn camping 101: how to set up a tent, build a fire, and eat delicious smores.

Field Trip: Centennial Lakes Fishing

4-7

### Mini Golf

Get ready to tee off! We will be creating our own Mini Golf Course. To make things more exciting, instead of a normal golf club and ball, students will be golfing the course using Sphero Bolt Robots.

Field Trip: Centennial Lakes Mini Golf

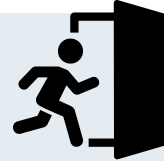

**Week 1:  
June 2-6**

K-3

### Build it Up, Knock It Down

Spend time building various structures... and then have fun knocking them down! We will use cardboard, dominoes, cups, legos, and more to create and build and then watch them fall!

Field Trip: Pinstripes Bowling

4-7

### Escape Room Engineers

Using your knowledge of simple machines, logic and the art of escaping rooms... will you be able to get out of the room in time? Spend each day trying to get out of a different challenging room... the last day you will build a room for the teachers to try and escape!

Field Trip: Locke & Key Escape Room

**Week 2:  
June 9-13**

K-3

### Colonial Times

Have you ever dreamed of traveling into the past? Well, we may not have a time machine, but we've got the next best thing! Make candles and butter, play colonial kids games, and learn to sew.

Field Trip: In House Visitors from the Colonial Times

**Week 3:  
June 16-20**

K-5

### Marshmallow Day Camp- June 19

This one day camp will have you licking your lips! Make your own marshmallows, create slime from marshmallows and find different ways to fling, build and explore with these sticky snacks.

**K-3**

## Color Explosion

Join us for a vibrant and fun filled colorful week! This camp is perfect for kids who love to get creative and immerse themselves in a world of color. We will make color changing slime, taste test colorful foods, and create all kinds of multicolored art.

Field Trip: Crayola Experience

**Week 4:  
June 23-27**

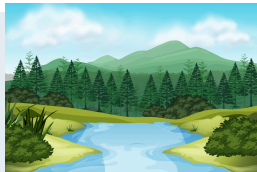

**K-5**

## Hooray for America

Show your red, white, and blue spirit for the week! We will work together to make patriot gear and a float so we can end our week with our very own 4th of July parade!

No Field Trip this week as it is a short week (Monday-Wednesday only)

**Week 5:  
June 30-  
July 2**

**K-3**

## Nature Detective

Put on your detective hat as we explore the natural world! Campers will learn to identify the many clues that animals and plants leave behind as we dissect flowers, create art with nature, and have a taste test of different natural herbs (and maybe even plant your own!)

Field Trip: Centennial Lakes and In-House Bug Guy

**Week 6:  
July 7-11**

**K-3**

## Natural Disasters

Ever wondered how tornados, earthquakes, and hurricanes occur? In this camp we will create our own natural disaster models, play with "snow", and even have some fun eating dirt cups.

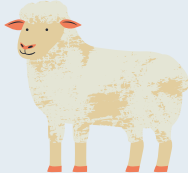

Field Trip: In house Weather Man

**Week 7:  
July 14-18**

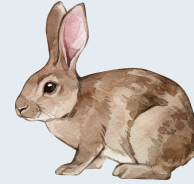

PM

## Critter Care

Do you have a love for all living creatures? Come explore and build habitats, go on a scavenger hunt, and even make your own fossil!

Field Trip: Scott County Fair

**Week 8:  
July 21-25**

## Little Chefs Outside the Kitchen

You might already love to cook or eat food but did you know you can also make art with it? In this camp we will do lots of cooking but we will also be able to experiment and create with it! We will make homemade ice cream and fizzy lemonade, build towers out of food, and make our own solar ovens.

Field Trip: Centennial Lakes Farmers Market & In-house Chef

K-3

**Week 9:  
July 28-  
August 1**

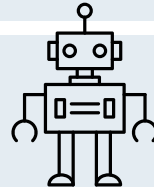

K-3

## Mission Impossible

Use your detective skills and superhero minds to work through various challenges and missions. We will do this through escape room challenges, building stomp rockets, and creating our own comic.

Field Trip: Bad Guys 2 @ AMC Southdale

4-7

## Robot Olympics

Test your knowledge and skills of working with robots (Sphero bolt or Dash Robots). Throughout the week each robot and their master will have to work through a variety of different challenges and obstacles to see who will reign supreme Robot Master!

Field Trip: Dave and Busters

**Week 10:  
August 4-8**

K-3

## A2D Olympics

A2D Olympics camp takes campers on a sports-packed week of fun games and team competitions, beginning with an opening ceremony! This week we will create our trophies, torches, medals, and flags as well as participating in A2D Olympic challenge events.

4-7

## Survivor

What if Goldilocks walked in on three Dinosaurs instead? Or if Jack climbed the beanstalk and found a world of talking cats, instead of giants? This camp will take classic fairytales and mix them up with the magic of acting and artworks!

**Week 1:  
August 11-  
15**

# The A2D Difference

A2D Academy is run and lead by licensed teachers and educational professionals with ample experience. Programs are designed to be enrichment classes and offer exposure to many different learning opportunities. Classrooms are multi-age and promote hands on learning with a low student to teachert ratio. Students have the time to learn both individually and in group settings. We want students having so much fun that they don't realize they are learning! We believe learning is more than math and reading concepts: it entails taking turns, being imaginative, problem-solving and perseverance. Our camps are horizon expanding, and students will walk away with a new found interest or deeper interest in subject matter.

## Registration Dates:

Summer Discovery Program  
(7 Week minimum contract)

January 1st

Summer Discovery Camps  
(weekly contracts)

January 15th
